This rum was distilled at the Caroni Distillery in Trinidad on their great column still, it is a classic example of their 'HTR' Heavy Type Rum.

This single cask, from a 1995 distillation, has been bottled at cask strength showing all the quality and depth of flavour for which this distillery was famous for, sadly it is now closed and this style of rum will just become a memory when the stock has been consumed. Full gold in colour, with fruit and wood on the palate the high spirit carries you to a long finish. Enjoy over ice or with a splash of water,
